

A modern living room with a large window and a sofa. The window is made of PVC and has a minimalist design. The sofa is light-colored with orange and grey cushions. A vase with white flowers is on a table in the foreground. The background shows a cityscape with domes.

# **LUX**

***La Finestra di Design***

***Una finestra in PVC che valorizza l'essenzialità delle forme squadrate, dallo stile minimale, con una particolare cura dei dettagli estetici per esaltare la personalità della casa. LUX dona maggiore luminosità agli ambienti e aumenta il comfort-design degli spazi. Pensata per architetti, progettisti e committenti che seguono le tendenze della moderna edilizia e necessitano di serramenti che si adattano perfettamente alle esigenze degli arredi interni e ai contesti architettonici esterni, in cui la luce naturale diventa protagonista.***

The image shows a contemporary living room. On the left, a large vertical garden wall is covered in various green plants, including large-leafed tropicals and trailing vines. This wall is flanked by vertical wooden slats. In the foreground, a bright orange modular sofa is adorned with several cushions in shades of green and grey. A small, round, white side table holds a glass lamp with a warm-toned bulb. To the right, a tall, white, tiered plant stand holds several potted plants. Large, floor-to-ceiling windows on the right side of the room offer a view of a bright, outdoor landscape with trees and grass. The ceiling is white with a track lighting system. The overall aesthetic is clean, modern, and nature-inspired.

# **LUX**Minimal

***La luce nell'essenza del design***

***Una finestra in PVC che esalta la purezza delle linee e la leggerezza visiva, grazie al nodo asimmetrico da 115 mm. Il design minimale di LUX MINIMAL valorizza ogni ambiente con un'estetica raffinata e contemporanea, dove la luce naturale diventa elemento centrale del progetto. Pensata per architetti, designer e committenti che ricercano soluzioni moderne e armoniose, si integra perfettamente in contesti residenziali e architettonici di ultima generazione, unendo eleganza, comfort e massima luminosità.***
